

SUMMER DAYS

VERSE 1

If the sun forgets to shine on you, enjoy the shade
If friends forget to call once in a while, that's ok
Been finding it hard a little lately, to face the dawn of brand new day
It took time, a little faith & patience, now everything's going my way

CHORUS

Summer days drift on by, when I'm with you
Not a cloud in the clear night sky, watch the stars shine

VERSE 2

If you hesitate, you might lose your way; push on through you know you'll
make it
When a compliment heads your way, be sure to take it
I know it seems hard and never easy, but tomorrow's a brand new day
You came along at the right time for me, now everything going my way

CHORUS

INSTRUMENTAL

VERSE 3 / MIDDLE

It's gonna be a fine, fine day, those blues seem a world away
You whisper words I long to hear
So glad you had the heart to tell me, you cast your spell upon me
Each moment here now feels like a dream, like a dream

CHORUS x3

Summer days drift on by, when I'm with you
